

Call for Papers

Special Issue on

Computability and Complexity Analysis

Dedicated to Prof. Klaus Weihrauch's 65th Birthday

Journal of Universal Computer Science

<http://www.jucs.org/>

The Fifth International Conference on Computability and Complexity in Analysis (CCA 2008) took place from August 21-24, 2008 in Hagen, Germany, see <http://cca-net.de/cca2008/>. The conference CCA 2008 was held in honor of Klaus Weihrauch's 65th Birthday and the special issue will be dedicated to this occasion too.

Papers not presented at CCA 2008 may also be considered for submission. All papers will be refereed according to the usual scientific standards.

Submitted papers must not be previously published nor submitted for publication elsewhere and must deviate significantly from the conference version in ENTCS.

The number of papers that can be accepted in this special issue is limited.

All submitted papers should be prepared already with the LaTeX style file of JUCS, see http://www.jucs.org/jucs_info/submissions

PDF versions of papers for this special issue can be submitted via the following EasyChair page:

<http://www.easychair.org/conferences/?conf=cca2008postconferenceproceedin>

It is planned that the publication of this special issue follows the following schedule:

Deadline for submission: November 3, 2008.

Notification date: February 2, 2009.

Final versions due: March 2, 2009.

Guest editors:

Vasco Brattka, University of Cape Town, South Africa

Pieter Collins, CWI, Amsterdam, The Netherlands

Robert Rettinger, University of Hagen, Germany
