# Managing Editor's Column

**Dear Readers:**

This issue of J.UCS contains expanded versions of four award winning papers that will be presented at the WebNet'98 (http://www.aace.org/conf/webnet) conference in Orlando, Florida, at the beginning of November 1998. Thus, as readers of J.UCS, you have a first glimpse of some of the good work to be presented at the above mentioned conference.

I would also like to thank the authors for adapting their papers for J.UCS, and AACE (http://www.aace.org/), the organizer of WebNet, for the permission to publish the extended versions in J.UCS.

Happy reading!

Yours cordially,

Hermann Maurer
