Managing Editor's Column

Vol. 5, No. 8; August 28, 1999

Dear Readers:

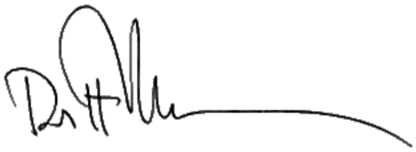
This is another slim issue of J.UCS: the summer time is showing! Nevertheless, its three excellent papers are well-worth looking at!

Now that summer is over we seem to be getting more good-quality submissions. Thanks to all our contributors and to our referees who volunteer to review them!

Concerning the modalities from 2000 onward I have no news from Springer yet, but I hope to be able to report concerning this matter next time.

Please enjoy reding this issue, and don't forget to look out for the two upcoming special issues!

Yours cordially,



Hermann Maurer
